SUMMARY

Registered nurse turned full-stack developer. I spent six years on hospital wards watching staff fight clunky software, so I learned to build better tools. I ship quickly, test with real users, and want to co-found a health tech startup with a business partner who knows sales and fundraising.

EXPERIENCE

Software Engineering Fellow at Tempus

Jul 2024 – Present

- Built a React dashboard that lets clinicians track lab results, used by 300+ staff.
- Cut API response times by 35% by adding caching to Node.js services.

Frontend Developer (Freelance) | Lakeview Dental Group

Feb 2024 – Jun 2024

- Rebuilt the online booking flow in Next.js; online bookings rose 40% in two months.

Registered Nurse, Northwestern Memorial Hospital

Aug 2017 – Dec 2023

- Charge nurse for a 28-bed cardiac unit; led the rollout of a new patient handoff checklist.
